

From Kent Philips, District 3

Question: I am running for city council and a potential constituent came to me with a concern that he discovered all of the bridges crossing Lake Austin would become toll bridges if Project Connect were passed. I was uncertain that this was true, but can you provide for me information to dispel the idea or show that it is true?

Answer: Thank you for your inquiry. There are no plans to make the bridges crossing Lady Bird Lake toll bridges if voters approve the City of Austin 2014 Bond. For more information about the Bond Election, visit www.austintexas.gov/2014bond.
